

Maxitorque Plus™

Biometrix Medical's Superb Diagnostic Catheters

Improved Flow Rates

Large inner lumens allowing high flow rate
Inner lumen design helps produce sharp, high contrast images
Excellent Torque Response

1 to 1 torque response with no whipping effect Smooth easy access to difficult anatomy

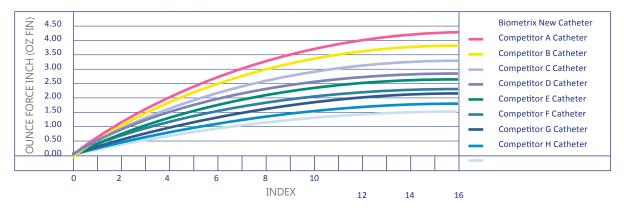

Competitive Inner Tip Diameter

Radiopaque tip for clear visualization and accurate positioning Inner tip diameter delivers smooth, constant flow rates Low trauma, soft tip is easy to introduce and gentle on the vessels Stiff

Innovative Braid Design which ensures Kink resistance Novel polymer designed to enhance curve retention Excellent shaft firmness to enhance pushability Positional stability during injection

Competitor Analysis on Torque

- 1 to 1 torque
- No whipping effect or lag
- Reduced procedure time due to ease of positioning

Maxitorque Plus[™] Order Information
